ABOUT ME

I am a Computer Science student studying at University of Cambridge. What I really enjoy is the beauty of Computer Science and how it can be applied in real life. Having used C/C++ for over a whole year, I also learn other programming languages. With the help of Open Course, I gain more knowledge myself on different kinds of field. I am open to new fields of area and enjoy exploring unknown features. Meanwhile, it's also part of my daily routine to learn more around Algorithm and Data Structure, Database, Computer Graphics etc.
